

GAMBICA

UK PAVILION at

MEDICA

GAMBICA

is the Trade Association for Instrumentation, Control, Automation and Laboratory Technology in the UK. Our insight and influence help our members to be more competitive by increasing their knowledge and impact. Together we remove barriers and maximise the market potential in our industry.

Please visit our booth in hall 1, number 1G03-1. Alternatively we can be contacted at info@gambica.org.uk or visit our website www.gambica.org.uk

We are delighted to introduce the following companies, exhibiting as part of our **UK pavilion in Hall 1, at MEDICA 2022**. To find out more our group participants take a look at their website. Better still, visit their stand at the event, a map of our pavilion is provided at the end of this Guide!

AbBaltis

AbBaltis provides solutions to the IVD industry and Biotech markets by supplying a variety of disease state plasma, serum, residual clinical samples, hormone, allergy, autoimmune, and services such as defibrillation, delipidation, charcoal stripping and affinity stripping.

1G11-3

www.abbaltis.com

info@abbaltis.com

Absolute Antibody

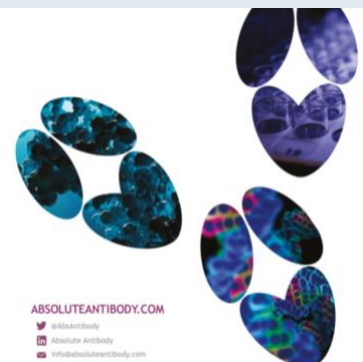

1G01-2

www.absoluteantibody.com

info@absoluteantibody.com

Specialists in antibody sequencing, engineering and recombinant production. Our unique catalogue of engineered recombinant antibodies and fusion proteins includes reagents such as mouse-anti-mouse antibodies for immunotherapy research and research-grade biosimilars. Our antibody engineering services include species/isotype switching, humanization, and creating custom antibody fragments or bispecifics.

AgPlus Diagnostics

1G03-3

www.agplusdiagnostics.com

info@agplusdiagnostics.com

AgPlus has developed a point of care immunoassay platform using their patented electrochemistry technology. The Agilis platform offers a fast, quantitative, sensitive, easy to use POC solution for healthcare providers. Lab results at point of care. AgPlus offers contract development and manufacturing services for point of care assays.

Analox Instruments

1F03-12

www.analox.com

david@analox.com

Analox manufactures instruments for the measurement of glucose, alcohol, lactate and more. Our systems are fast, accurate and precise.

Atom Scientific

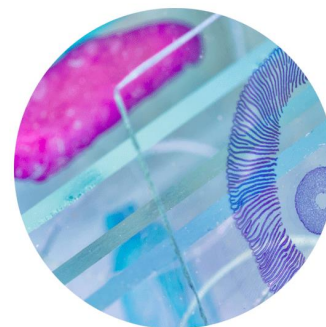

1F03-1

www.atomsscientific.com

rowexport@atomsscientific.com

Manufacturer of diagnostic stains, stain kits, ready reagents. Supplier of chemicals, solvents and fixations

Avacta Diagnostics

1G11-5

www.avacta.com

affimers@avacta.com

Avacta Diagnostics, based in Wetherby, UK., utilises its proprietary Affimer® platform to develop high performing diagnostics and works with partners worldwide to develop Affimer reagents with the objective of establishing royalty bearing license deals.

The Affimer® platform is an alternative to antibodies derived from a small human protein. Despite their shortcomings, antibodies currently dominate markets worth in excess of \$100bn. Affimer technology has been designed to address many of these negative performance issues, principally: the time taken, and the reliance on an animal's immune response, to generate new antibodies; poor specificity in many cases; large size and cost.

AZoNetwork

The leading digital marketing platform for Science, Engineering and Healthcare. With over 135M unique visitors and 900K+ subscribers we deliver the right content to the right people at the right time.

1G01-3

www.AZoNetwork.com

marketing@azonetwork.com

Baltimore Innovations

Experts in Moisture Control Packaging. We offer technical consultancy and products such as: Silica Gel Dessicants, Aluminium Foil Packaging & Roll-stock, Patented Dessicant Plastics, Liquid Absorbers . . .and High-Speed Dispensing Machines to automate their inclusion

1F11-5

www.baltimoreinnovations.com

sales@baltimoreinnovations.co.uk

Biopanda Reagents

Biopanda Reagents develops and manufactures in vitro test kits for clinical laboratories, veterinary practices, and food safety, both locally and globally. Our company provides innovative, high quality and cost-effective test reagents that offer the sensitivity, specificity and accuracy that customers demand. Based in Northern Ireland, we benefit from continued seamless access to the European market.

1G11-1

www.biopanda.co.uk

info@biopanda.co.uk

FlexMedical Solutions

FlexMedical Solutions' designs, develops and manufactures point of care (POC) in-vitro diagnostic (IVD) tests. With capabilities in science, microfluidics, engineering and manufacturing and accreditation to ISO13485, the company prides itself on helping our customers create a healthier tomorrow.

1F03-3

www.flexmedical-solutions.com

info@flexmedical-solutions.com

GeneFirst

1F11-1

www.genefirst.com

info@genefirst.com

We are a molecular diagnostics company focused on infectious diseases, cancer diagnostics and personalised medicine. We offer robust, easy-to-use and sensitive molecular diagnostics solutions to researchers, clinicians and drug companies to enable accurate diagnosis and delivery of safe and effective medicines.

Imutest

1G03-4

www.imutest.com

peter.mcculloch@imutest.com

Imutest offers a range of self-test/POC allergy test kits for the most common environmental and food allergens ... these are simple-to-do tests using a small finger/heel prick sample of blood with results in 30 mins

Integrated Graphene

1F03-4

www.integratedgraphene.com

info@integratedgraphene.com

We at Integrated Graphene specialise in the development & integration of our novel 3D graphene "Gii". We offer our innovative Gii-Sens biosensor alongside a wide range of custom assay development and LOC services. Our experts specialise in bringing your designs to large scale manufacturing capacity from an R&D beginning. This patented material and manufacturing process is set to disrupt the medical diagnostic industry by offering the sensitivity and reproducibility of gold but at the price point of graphene. Gii-Sens®- Graphene sensors on demand - Ready when you are.

Integrated Graphene's Gii-Sens® is the new benchmark in biosensing, replacing gold with better performance, lower cost, easy integration and better anti-fouling properties. Gii-Sens® enables laboratory tests to be translated to the point of need whilst our vertical integration means we are the only company you need to develop your diagnostic test from concept to high volume manufacture. Our unique, flexible business model gives our clients unparalleled agility throughout the development process.

Johnson Test Papers

We are a manufacturer of rapid tests and high quality filter media for laboratory and medical applications. We also provide a full R&D service to help develop your ideas from concept to manufacture and can provide all of our products as OEM/Private label.

1F01-2

www.johnsontestpapers.com

info@johnsontestpapers.com

Logical Biological

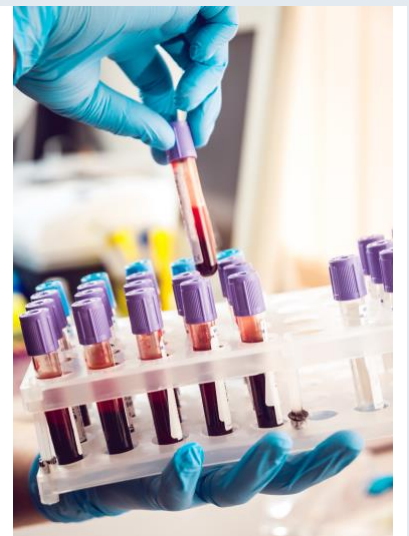

1F01-3

www.logicalbiological.com

info@logicalbiological.com

Logical Biological provides human biological products which empower the in vitro diagnostic (IVD) industry to develop high performance assays. We offer material such as serum, plasma, swabs and saliva, all of which are essential components used in IVD tests, their development, calibration and quality control. We are ISO9001:2015 certified and can provide material either in bulk volumes or as small clinical samples from diseased and healthy patients, directly collected from donor centres and blood banks around the globe. We are IVD industry specialists who strive to understand exactly what you need & be 100% reliable in delivering it.

LTE Scientific

1F03-9

www.lte-scientific.co.uk

info@lte-scientific.co.uk

Manufacture of medical and laboratory equipment including laboratory autoclaves, steam sterilizers, endoscope drying/storage, laboratory ovens, incubators, cooled incubators, drying cabinets and freeze-dryers. Our multi-purpose sterilization autoclaves for both the laboratory & medical industries are designed and built in the UK.

Mast Group

Established 1957, Mast Group has grown into a multinational company exporting globally. The corporate headquarters Mast Group Ltd are based in Bootle and has subsidiary companies in Reinfeld and Amiens, France.

Mast Group were among the first companies to commercialise the antibiotic disc, and continue to work with major pharmaceutical companies worldwide in the development of new and exciting products.

1G11-4

www.mast-group.com

sales@mastgrp.com

Microzone

Microzone have been developing PCR Mastermixes and reagents for DNA and RNA work since 1998. Our Direct 2 PCR lysis tools have been helping scientists since 2004. We include extraction kits, bead separation devices and qPCR products too.

1F03-10

Omega Diagnostics

Omega is an international diagnostic testing business that passionately believes in promoting a more personalised approach to health, improving lives around the world by accurately informing health decisions.

Using pioneering diagnostic technologies, we enable healthcare professionals and their patients to accurately identify lifestyle and dietary changes that can significantly improve long-term health and well-being.

1F11-2

www.omegadx.com

odl@omegadx.co.uk

Our world leading food sensitivity test panels help identify the root cause of gut health issues and are trusted by over 150 labs worldwide.

Oxford Immunotec

Oxford Immunotec is a global diagnostics company and part of PerkinElmer group. Our leading product, the T-SPOT.TB test, is used for diagnosing infection with Tuberculosis, the world's second largest cause of death from infectious disease after COVID-19.

1F11-3

www.oxfordimmunotec.com

info@oxfordimmunotec.com

Our proven T-SPOT technology has also been used to develop T cell tests for COVID-19, both for research use - T-SPOT Discovery SARS-COV-2 kit (RUO) and for IVD use - the T-SPOT.COVID test (CE marked). They are both used to detect a T cell response to SARS-CoV-2.

PhoenixDX

Molerumi is a low cost single use disposable molecular self -testing diagnostic kit as small as lateral flow kit developed by PhoenixDX. LTD

1G01-4

www.phoenixdx.co.uk

george.goh@phoenixmdx.com

Priorclave

1F03-2

www.priorclave.co.uk

sales@priorclave.co.uk

One of the UK's leading laboratory autoclave manufacturers, has developed the most comprehensive range of standard steam sterilisers with models providing a wide choice of chamber sizes from 40 to 700 litre capacity. There are also a number of styles to choose from – front and top loading, circular and rectangular chambers to suit load requirements, as well as design formats from small benchtop to high capacity chambers, even autoclaves with double-door configurations.

All models are designed and built at the company's manufacturing centre in London which has the added benefit that should a customer require a special autoclave for a unique application Priorclave is able to create a bespoke build. This centre is also a UKAS accredited laboratory for calibration and performance qualification.

Pro-Lab Diagnostics

1F01-1

www.pro-lab.co.uk

uksupport@pro-lab.com

Manufacturer and supplier of in vitro diagnostic kits & reagents for microbiology / virology. Women's health. Latex kits, Elisa, Lateral Flow, Stains, Bacterial Storage

QuantuMDX

1G01-1

www.quantumdx.com

info@quantumdx.com

QuantuMDx is passionate about empowering the world to control disease and reduce suffering.

QuantuMDx solves real-world diagnostic problems by creating multiplex molecular solutions.

Q-POC™ is a rapid multiplex PCR testing system that delivers fast, accurate and actionable results in approximately 30 minutes at the Point of Need.

Rapid Labs

1F03-7

www.rapidlabs.co.uk

rk@rapidlabs.co.uk

ISO13485 Certified manufacturers of CE Marked Blood Grouping, Rapid Test kits, Febrile antigens, latex agglutination assays and Rapid Test kits. Microbiological media, including inactivating biomolecule stabilising and fixing, compatible with all biological sample types. products for multiomic analysis by molecular and immunologic and histological methods , Next generation tissue fixation and biomolecule stabilisation for research applications.

Starna Scientific

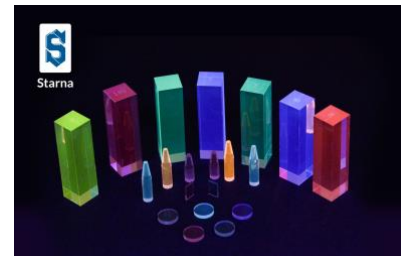

Starna scientific

1F11-4

www.starna.com

marketing@starna.com

- A world-leading manufacturer of fluorescent reference materials
- UV-Vis-NIR Certified Reference Materials for instrument performance validation (ISO 17025 & 1703 creditation)
- Glass/quartz optical components and accessories for spectroscopy.

Surescreen Diagnostics

1F03-6

www.surescreen.com

info@surescreen.com

SureScreen Diagnostics is an award-winning business that provides providing quality rapid diagnostic equipment and services around the globe. Across Europe, every two seconds a SureScreen testing kit is being used.

We believe that early, accurate diagnosis is better than waiting for problems to arise, and a pro-active approach greatly benefits people's health, identifies issues early in their development, prevents accidents from happening and has a positive effect on performance, productivity and reputation.

Our mission is to provide the best quality diagnostic products that meet and exceed their customer's expectations at a fair price.

TCS Biosciences

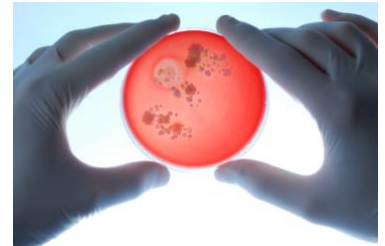

1G03-2

www.tcsbiosciences.co.uk

marketing@tcsgroup.co.uk

TCS is a manufacturer and distributor of laboratory reagents, test kits and quality control reagents for the Clinical, Pharmaceutical, Food and Water sectors. Our commitment to supplying quality and innovative products helps our customers to excel in the provision of clinical care, medicines, food and drinking water.

In our 50 year history we have established ourselves as Europe's foremost supplier of animal blood and sera for microbiological use. We are also a prominent player in the UK water industry and in the European pharmaceutical market.

At TCS, we are focused on developing our presence and product portfolio in each market sector, without compromising our core business value . . . Quality.

TCS Biosciences, your partner: For Life.

Woodley Equipment Company

1G11-2

www.woodleyequipment.com

sales@woodleyequipment.com

Woodley Laboratory Diagnostics specialising in niche Point of Care solutions are a master distributor of QBC dry haematology analysers, QBC fluorescence microscopy solutions, Vision Microscopes and Clinispin centrifuges. Woodley Veterinary Diagnostics supplies worldwide veterinary distributors with laboratory diagnostic products including the InSight Veterinary Lab System (haematology, chemistry and immunoassay), coagulation, critical care, blood gas/electrolyte analysers and handheld meters

Yourgene Health

1F03-8

www.yourgene-health.com

info@yourgene-health.com

Yourgene Health is a leading integrated technologies and services business, enabling the delivery of genomic medicine. Yourgene works in partnership with global leaders in DNA technology to advance diagnostic science.

Yourgene primarily develops, manufactures, and commercialises simple and accurate molecular diagnostic solutions, for reproductive health, precision medicine and infectious diseases. Our flagship in vitro diagnostic products

include non-invasive prenatal tests (NIPT) for Down's Syndrome and other genetic disorders, Cystic Fibrosis screening tests, invasive rapid aneuploidy tests and DPYD genotyping.

Yourgene has a range of innovative DNA sample preparation platforms, powered by Ranger® Technology, the LightBench®, LightBench® Detect and Yourgene QS250, ideal for cell-free DNA applications in NIPT and oncology including liquid biopsy.
