# MEDICA

## GAMBICA

is the Trade Association for Instrumentation, Control, Automation and Laboratory Technology in the UK. Our insight and influence help our members to be more competitive by increasing their knowledge and impact. Together we remove barriers and maximise the market potential in our industry.

Please visit our booth in hall 1, number 1G03-2. Alternatively we can be contacted at [info@gambica.org.uk](mailto:info@gambica.org.uk) or visit our website [www.gambica.org.uk](http://www.gambica.org.uk)

We are delighted to introduce the following companies, exhibiting as part of our **UK pavilion in Hall 1, at MEDICA 2023**. To find out more our group participants take a look at their website. Better still, visit their stand at the event, a map of our pavilion is provided at the end of this Guide!

**1G11-5**

[www.2Bscientific.com](http://www.2Bscientific.com)

[info@2Bscientific.com](mailto:info@2Bscientific.com)

2BScientific Limited is a UK based LifeScience Reagents distributor providing a novel, high-quality and personal approach to the supply of research reagents and services to the European research market in a way that supports life science through a number of corporate sustainability initiatives for a betterworld. We aim to provide novel solutions relevant to today's researchers, with our commitment to work every day in accordance with the promise - "no one does more for the customer"

**1F11-6**

[www.baltimoreinnovations.com](http://www.baltimoreinnovations.com)

[sales@baltimoreinnovations.co.uk](mailto:sales@baltimoreinnovations.co.uk)

Experts in Moisture Control Packaging. We offer technical consultancy and products such as: Silica Gel Dessicants, Aluminium Foil Packaging & Roll-stock, Patented Dessicant Plastics, Liquid Absorbers . . .and High-Speed Dispensing Machines to automate their inclusion

**1G03-2**

[www.biobasic.com](http://www.biobasic.com)

[order@biobasic.com](mailto:order@biobasic.com)

Bio Basic is a manufacturer and supplier of high grade reagents, biochemicals, molecular biology kits, labware and services to the Biotechnology and Pharmaceutical industry research industry.

**1H06-1**

[www.biofortuna.com](http://www.biofortuna.com)

info@biofortuna.com

Biofortuna is a contract assay development and manufacturing organisation providing a flexible and scalable outsourcing service to leading in-vitro and point-of-care assay developers.

Operating from state-of-the art premises and benefiting from ISO 13485 and ISO 17025 accreditation, they have a proven track record in the development and manufacture of molecular assays and Immunoassays.

**1F03-9**

[www.calibrescientific.com](http://www.calibrescientific.com)

Calibre Scientific represents a portfolio of life sciences tools and diagnostics companies, across various key verticals, that have an unrivaled ability to address the unique challenges of their respective markets. Through a combination of acquisitions and organic growth, our global reach extends into over 175 countries, empowering customers all over the world. Headquartered in Holland, Ohio, Calibre Scientific continues to grow across a wide array of verticals and geographies, further diversifying its product offering and global footprint to laboratories around the world.

A CALIBRE SCIENTIFIC COMPANY

**1F03-11**

[www.elkaylabs.com](http://www.elkaylabs.com)

sales@elkaylabs.com

Elkay Labs is a premier distributor of laboratory products including liquid handling, specimen collection, storage, biobanking, test tubes, caps and vials, filtration and centrifugation, multi-well plates and calibration services to a range of domestic and international institutions and organisations. The company's diversified customer base spans a variety of end markets including clinical, academic, industrial and environmental. Elkay Labs' product offering and exceptional after-sales service and support has positioned the Company as an expert in the market. In 2021, Elkay Laboratory Products joined the Calibre Scientific portfolio.

**1G11-3**

[www.enbiosis.com](http://www.enbiosis.com)

ozkan@enbiosis.com

Enbiosis Biotechnology is dedicated to unraveling the complexity of the gut microbiome and its impact on human well-being and diseases by leveraging big data and AI. Our clinically proven, cloud-based SaaS product offers personalized food recommendations and precision supplements for patients with GI disorders, especially those with IBS.

**1F03-6**

[www.flexmedical-solutions.com](http://www.flexmedical-solutions.com)

info@flexmedical-solutions.com

FlexMedical Solutions brings your point of care diagnostic idea to life - from concept to commercialisation.

With unrivalled capabilities, we can provide full assay development services AND commercial manufacturing.

We combine scientific, microfluidic and engineering expertise to provide solutions to meet our clients technical and commercial requirements.

FLEXible Approach - MEDICAL Focus - SOLUTIONS Driven

**1F11-4**

[www.genedrive.com](http://www.genedrive.com)

enquiries@genedrive.com

Genedrive Diagnostics Ltd is a molecular diagnostics company developing and commercialising a simple molecular platform for use in patient stratification (genotyping) to inform treatment decisions in time-critical situations. Genedrive can change lives through rapid access to the benefits of molecular diagnostics at the point of care.

# Glentham LIFE SCIENCES

1G11-2

[www.glentham.com](http://www.glentham.com)

sales@glentham.com

Glentham Life Sciences is a supplier of fine chemicals, biochemicals and raw materials to diagnostics, research and production markets worldwide.

# HTZ

1F03-5

[www.htz.biz](http://www.htz.biz)

orders@htz.biz

HTZ designs and manufactures robotic liquid handlers which are primarily used in the clinical, pharmaceutical, industrial and research sectors. Applications include: IFA, Blood Grouping, ELISA, PCR, sample archiving, filling and capping, cherry picking, MS sample preparation. HTZ will be displaying its new "Beeline ZX" range of affordable pipetting stations.

1F03-3

[www.integratedgraphene.com](http://www.integratedgraphene.com)

info@integratedgraphene.com

We are a technology development company and systems integrator who has invented, patented and commercialised a revolutionary 'design for manufacture' process to grow high performing, low cost, pure 3D Graphene – called Gii®.

Gii is utilised to build market leading electrochemical biosensors for point-of care diagnostics, supercapacitors revolutionising battery usage as well as tools for gas and pressure sensing. It has even been implemented in energy harvesting solutions.

# Isohelix™

DNA/RNA Sampling and Purification

1G11-6

[www.isohelex.com](http://www.isohelex.com)

info@isohelex.com

Isohelix manufactures innovative DNA RNA Buccal Swabs, DNA RNA Saliva and Microbiome Collection Devices, with a range of Optimized DNA Stabilization and Purification Kits giving the highest yields and purity for Manual, HT and Automated Applications.

# Johnson®

TEST PAPERS

1G01-1

[www.johnsontestpapers.com](http://www.johnsontestpapers.com)

info@johnsontestpapers.com

Johnson Test Papers are a manufacturer of rapid tests and high quality filter media for laboratory and medical applications. We also provide a full R&D service to help develop your ideas from concept to manufacture and can provide all of our products as OEM/Private label.

**1F01-3**

[www.logicalbiological.com](http://www.logicalbiological.com)

[info@logicalbiological.com](mailto:info@logicalbiological.com)

Logical Biological provides human biospecimens which empower the in vitro diagnostic (IVD) industry to develop high performance assays. We offer material such as serum, plasma, swabs and saliva, all of which are essential components used in IVD tests, their development, calibration and quality control.

We are ISO9001:2015 certified and can provide material either in bulk volumes or as small clinical samples from diseased and healthy patients, directly collected from donor centres and blood banks around the globe.

We are IVD industry specialists who strive to understand exactly what you need & be 100% reliable in delivering it.

A CALIBRE SCIENTIFIC COMPANY

**1F03-12**

[www.lornelabs.com](http://www.lornelabs.com)

[info@lornelabs.com](mailto:info@lornelabs.com)

For over forty years Lorne Laboratories has sought to provide a simple and total solution for Blood Transfusion professionals across the world. Lorne was created by biomedical scientists who believed that the manufacture and distribution of reagents and associated products for blood transfusion could be provided professionally, ethically and with quality at the centre of all that it did. In 2020, Lorne Laboratories joined the Calibre Scientific portfolio.

**1F03-7**

[www.lte-scientific.co.uk](http://www.lte-scientific.co.uk)

[info@lte-scientific.co.uk](mailto:info@lte-scientific.co.uk)

LTE Scientific is a manufacturer of medical and laboratory equipment including laboratory autoclaves, steam sterilizers, endoscope drying/storage, laboratory ovens, incubators, cooled incubators, drying cabinets and freeze-dryers. Our multi-purpose sterilization autoclaves for both the laboratory & medical industries are designed and built in the UK.

**Mast Group**

**1F01-2**

[www.mast-group.com](http://www.mast-group.com)

[sales@mastgrp.com](mailto:sales@mastgrp.com)

Mast Group were among the first companies to commercialise the antibiotic disc, and continue to work with major pharmaceutical companies worldwide in the development of new and exciting products.

**1F01-1**

[www.mwe.co.uk](http://www.mwe.co.uk)

[info@mwe.co.uk](mailto:info@mwe.co.uk)

MWE has been innovating products for 70 years. We were the inventors of the transport swab in 1975, which remains the defacto industry standard across the globe. We have introduced products like the  $\Sigma$ -Virocult,  $\Sigma$ -Swab,  $\Sigma$ -MM, Dryswabs, Fecal Transwab, Polywipes, and more into the global market in industries such as Clinical, Food, Pharmaceutical, Forensics, Veterinary, and Research.

We are also demonstrating the Amnicator<sup>®</sup> is an amniotic fluid test which is nitrazine-based test for rapid and easy detection of the premature rupture of membranes during pregnancy (PROM). The simple swab test gives a result in 30 seconds

A CALIBRE SCIENTIFIC COMPANY

**1F03-10**

[www.medlinescientific.co.uk](http://www.medlinescientific.co.uk)

[enquiries@medlinescientific.co.uk](mailto:enquiries@medlinescientific.co.uk)

Medline Scientific supplies laboratory consumables, scientific equipment, and service solutions to medical, clinical, university, pharmaceutical, food research and industrial organisations. Medline Scientific is ISO accredited and has certification in ISO:9001 Quality Management; ISO:14001 Environmental Management; and ISO:13485 Medical Devices – Quality Management Systems. Our broad product portfolio includes market-leading brands and cost-effective high-quality alternatives, to help customers find the most appropriate solutions for their applications. In 2021, Medline Scientific joined the Calibre Scientific portfolio giving our customers easy access to an even wider range of products and services, and a wealth of technical expertise.

**1F11-1**

[www.omegadx.com](http://www.omegadx.com)

[odl@omegadx.com](mailto:odl@omegadx.com)

Drawing on over 30 years experience, Omega Diagnostics develop, manufacture and market pioneering diagnostic products associated with food sensitivity and gut health. These products enable healthcare practitioners to make informed decisions that can transform their patients' long-term health.

**1F03-1**

[www.priorclave.co.uk](http://www.priorclave.co.uk)

[sales@priorclave.co.uk](mailto:sales@priorclave.co.uk)

One of the UK's leading laboratory autoclave manufacturers, has developed the most comprehensive range of standard steam sterilisers with models providing a choice of chamber sizes from 40 to 700 litre capacity. There are a number of styles to choose from – front and top loading, circular and rectangular chambers to suit load requirements, as well as design formats from small benchtop to high capacity chambers, even autoclaves with double-door configurations. All models are designed and built at the company's manufacturing centre in London which has the added benefit that should a customer require a special autoclave for a unique application Priorclave is able to create a bespoke build.

Pro-Lab Diagnostics specialise in the development and manufacture of IVD kits and reagents for Microbiology and Virology.

1G03-3

[www.pro-lab.co.uk](http://www.pro-lab.co.uk)  
uksupport@pro-lab.co.uk

Our current product range includes a comprehensive selection of Rapid Test kits for Strep, Staph, MRSA, E.coli 0157, Nono157 E.coli and Legionella, the original and world famous Microbank™ Long Term Preservation System for Bacteria and Fungi, microbiology stains, rapid test reagents, diagnostics sera, custom OEM production opportunities, add racking systems.

ISO13485 Certified manufacturers of CE Marked Blood Grouping, Rapid Test kits, Febrile antigens, latex agglutination assays and Rapid Test kits.

1F11-2

[www.rapidlabs.co.uk](http://www.rapidlabs.co.uk)  
rk@rapidlabs.co.uk

Microbiological media, including inactivating biomolecule stabilising and fixing, compatible with all biological sample types.

Products for multiomic analysis by molecular and immunologic and histological methods, Next generation tissue fixation and biomolecule stabilisation for research applications.

1G11-4

[www.readygotest.com](http://www.readygotest.com)  
info@readygotest.com

ReadyGo™ revolutionises diagnostic testing by offering simplified and innovative solutions for decentralised and home-settings. Our products streamline sample collection and provide test results in just 20 minutes. We collaborate with companies to integrate our user-friendly, affordable products into existing tests as well as develop new ones.

Our focus is on simplifying diagnostic processes and delivering reliable results through thoughtful design.

1G01-3

[www.reingenuity.com](http://www.reingenuity.com)  
rjr@reingenuity.com

Reingenuity is a medical diagnostics manufacturer. Specializing in the field of microbiology, making sample processing devices relevant to a multitude of pathology testing applications. Our company's aim is to produce Gold Standard methodology with products of the highest sensitivity whilst optimizing laboratories' respective workflows. Visit our booth to find out more!

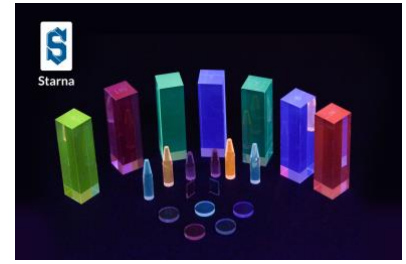

**Starna** scientific

**1F11-3**

[www.starna.com](http://www.starna.com)

marketing@starna.com

Starna Scientific is a world-leading manufacturer and supplier of high-precision cells and cuvettes for photometers and fluorimeters. Their products include standard and custom cells for spectroscopy, fluorimetry, clinical chemistry, and DNA/protein analysis.

Starna also offers traceable certified reference materials to meet all validation requirements, including ISO 17025 and ISO 17034 for UV-Visible-NIR and fluorescence spectroscopy. With over 50 years of experience and worldwide distribution, Starna is a trusted partner for instrument manufacturers and end-users in various industries.

**1F03-2**

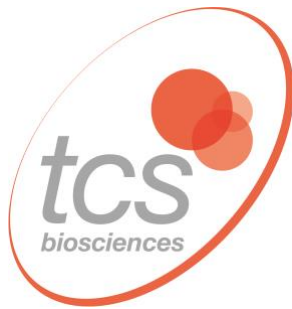

[www.surescreen.com](http://www.surescreen.com)

info@surescreen.com

SureScreen Diagnostics provides tailored diagnostic services and products across the UK and Europe that allow for fast, cost-effective and accurate results. We are an award-winning business that provides high-quality diagnostic products to meet and exceed customer's expectations at a fair price.

SureScreen Diagnostics' state-of-the-art operational site in the UK enables quick and reliable design, production and services to customers. We work with businesses to create bespoke solutions to develop diagnostic products from concept to market.

**1G03-1**

[www.tcsbiosciences.co.uk](http://www.tcsbiosciences.co.uk)

marketing@tcsgroup.co.uk

TCS is a manufacturer and distributor of laboratory reagents, test kits and quality control reagents for the Clinical, Pharmaceutical, Food and Water sectors. Our commitment to supplying quality and innovative products helps our customers to excel in the provision of clinical care, medicines, food and drinking water.

In our 50 year history we have established ourselves as Europe's foremost supplier of animal blood and sera for microbiological use. We are also a prominent player in the UK water industry and in the European pharmaceutical market. At TCS, we are focused on developing our presence and product portfolio in each market sector, without compromising our core business value . . . . Quality. TCS Biosciences, your partner: For Life.

**1F03-4**

[www.testlabsuk.com](http://www.testlabsuk.com)

info@testlabsuk.com

Test Labs is a specialist accredited test house focused on validating the cleaning, disinfection and sterilisation processes required for reusable medical devices.

We work with regulatory, quality and engineering experts to design appropriate reprocessing protocols, test and validate those protocols and deliver the source data required for their technical files when submitting to regulatory bodies.

Woodley Equipment Company are a leading worldwide supplier of diagnostic laboratory equipment for human and veterinary markets.

Woodley Laboratory Diagnostics specialise in niche Point of Care solutions and are a master distributor of QBC dry haematology analysers, QBC fluorescence microscopy solutions, Vision Microscopes and Clinispin centrifuges. New Point of Care Haematology and Chemistry systems will launch soon and will be available to see at Medica.

**1G11-1**

[www.woodleyequipment.com](http://www.woodleyequipment.com)

[sales@woodleyequipment.com](mailto:sales@woodleyequipment.com)

Woodley Veterinary Diagnostics supplies worldwide veterinary distributors with laboratory diagnostic products including the InSight Veterinary Lab System (haematology, chemistry and immunoassay), coagulation, critical care, blood gas/electrolyte analysers and handheld meters.
