Liverpool City Region hosts UK's biggest digital manufacturing show!

Liverpool and the North West's advanced manufacturing is in the spotlight as the region plays host to 4000 manufacturers from across the country at Smart Factory Expo – the biggest digital manufacturing show in the country.

The UK's largest standalone 4IR expo coincides with the government's much anticipated Industrial Strategy, and features:

Dedicated Exhibition Zones – Industrial Automation, Digital Transformation, Smart Factories, Industrial Internet

Free conference content – 96 presentations from world-class manufacturers and technology experts over two days

Innovation Alley – lifting the lid on the UK's manufacturing tech start-up scene

Hack & Pitch – real engineers, tackling real problems, in real time!

Industrial internet

Digital Transformation

Smart Factory

Industrial Automation

Attendance to Smart Factory Expo is free for all pre-registered attendees. Support the region's biggest manufacturing showcase – and join in the national conversation about the bright opportunities for UK manufacturing.
