

The Trade Association for Instrumentation, Control, Automation and Laboratory Technology in the UK. It has membership of over 200 companies including the major multinationals in the sector as well as smaller and medium sized companies.

The following companies are exhibiting with us at ANALYTICA 2018

Alpha Laboratorieswww.alphalabs.co.uk

Top quality range of laboratory consumables, which includes pipette tips, dispensers, microtubes, racks and electrophoresis equipment, sourced from leading worldwide manufacturers.

In addition own brand lines of essential laboratory products include high quality alpha+ pipettes, Pastette® transfer pipettes, eco-friendly Fastrak® pipette tips and SpeciSafe® UN3373 compliant sample packaging solutions.

B1.534-7

Analox Sensor Technologywww.analoxsensortechnology.com

Founded in 1981, we provide niche and custom gas detection solutions for several industries including beverage and hospitality, commercial diving, laboratories, medical environments and agriculture.

We are now recognised as a world leader in the design and manufacture of gas sensors and analysers, with 350 years of collective, specialist mechanical, electronics and software engineering expertise. Focusing on air gases including carbon dioxide, oxygen and nitrogen, as well as other gases including carbon monoxide, nitrogen dioxide and helium; we provide a wide range of fixed and portable gas monitors as well as OEM sensors and bespoke solutions.

B1.534-3

Autoscribe Informaticswww.autoscribeinformatics.com

Matrix Gemini is a configurable laboratory management information management system (LIMS) that **helps** laboratories manage large volumes of data to strict standards, while at the same time improving efficiencies, automation and turnaround times. One of the main features is a set of configuration tools designed to efficiently create optimized, yet highly adaptable, workflows.

The flexibility of Matrix Gemini allows its use in a wide variety of laboratories, both in size and application. Talk to us to discover how a LIMS can help you and which solution would be best suited to fit the needs of your lab.

B1.534-3

Elemental Microanalysiswww.elementalmicroanalysis.com

We specialise in producing high quality consumable products for Elemental Analysers at a great value price. We have a huge product range – thousands of products covering organic elemental analysis and inorganic elemental analysis, whatever your instrument or model (Leco®, Thermo®, Perkin Elmer®, Sercon®, Exeter®, Eltra®, Horiba®, Elementar®, EuroVector®, Costech®, Shimadzu®, Antek®,

B1.534-8

VELP®, Gerhardt®) we can supply your needs from our extensive stocks.

Our purpose-built facility in Devon UK is fully accredited to ISO9001 and ISO17025. We offer tin and silver capsules, specialist reagents, quartz and glassware, ceramic and graphite crucibles and much more – everything you need for the daily operation of your analyser.

LTE Scientific

B1.534-1

www.lte-scientific.co.uk

With a global reputation for providing high quality, reliable products, LTE Scientific is one of the most established and well respected manufacturers of laboratory equipment in the UK.

Our products include a wide range of autoclaves for general laboratory, process and high security applications. Standard sizes go from 23 to over 1,000-litres and are supplied with either a cylindrical or square-section chamber. A wide range of options can be added to tailor each autoclave to meet client requirements. We can also design and manufacture autoclaves with specific chamber sizes up to 10,000-litres.

Pop-Bio

Priorclave

B1.534-6

www.priorclave.co.uk

With more than 25 years as the most progressive UK laboratory autoclave design and manufacturing centre for steam sterilisers, Priorclave has become a trusted global brand with a reputation for supplying quality-built autoclaves offering superior reliability and affordability.

In addition to more than 60 standard laboratory autoclaves including front and top loading designs Priorclave's in-house production facility is able to manufacture autoclaves to match specific requirements. Priorclave autoclaves can be found working in laboratories all around the world and in virtually every business sector, all supported by a dedicated service team. For free advice on product selection contact Priorclave today.

SPEX Europe

B1.534-9

www.spexeurope.com

SPEX® SamplePrep was founded in 1954 to provide superior sample preparation equipment and supplies for laboratories world wide. Our products are used to prepare samples for a wide range of applications including XRF analysis, DNA/RNA Extraction, Pesticide extraction, Borate Fusion and mechanochemistry.

SPEX CertiPrep has been servicing the scientific community since 1954. We are a leading manufacturer of Certified Reference Materials (CRMs) and Calibration Standards for Analytical Spectroscopy and Chromatography. We offer a full range of Inorganic and Organic CRMs. We are certified by DQS to ISO 9001:2015 and are proud to be accredited by A2LA to ISO/IEC 17025:2005 and ISO 17034:2016.
